

Our SUBMISSIONS info is listed below. This is what we offer you, the artist. Please read these details carefully. As of January 2015, we were 10 years old, and to celebrate moving forward, as a Point Of Sale for your music.

In February 2014, we officially recognized that musicians who wish to sell MP3s can do so from their own website, as well as CDs and Vinyl.

Therefore, ALL TEXAS MUSIC has decided to SUPPORT MUSICIANS, by being an additional Point Of Sale for the sales of physical CDs and Vinyl recordings, and MP3s. We offer an online MP3 player to let the public hear your songs.

Plus, when someone buys your CD or VINYL, AllTexasMusic will email the MP3s of your album or EP to the buyer.

We do not deal with AM/FM terrestrial radio or "Top 10" lists, as this has been a dying format, and is more so each year. We DO submit your material to Sirius/XM for consideration of airplay. Should Sirius/XM play your material, you will be paid royalties though BMI/ASCAP.

Please read our FAQ for your detailed reference below. As a record "label", we are a bit unusual, as we do not require a contract or agreement of exclusivity. We exist to simply be an additional Point Of Sale for your recordings. We can also act to promote your recordings and grow your brand; visit [AllTexasMedia.com](http://AllTexasMedia.com).

---

We do NOT ask you to enter into an exclusive agreement with us as a "Label". **We have found that "exclusive contracts" end up benefitting ONLY A LAWYER!** If you are signed with an existing label, then we require that it is up to you to pay any legal fees to an entertainment lawyer. We are simply an additional point of sale for you, not an exclusive contract!

**About Us (FAQ):** All Texas Music (also known as All Texan Music, BestTexasMusic.com & ATXM Radio) was founded by and for Texas Musicians in **2005**. While most of the world knows Texas for Country Music, we also know Texas has great Rock, Jazz, Classical, Alternative, Ambient, Folk, Blues, Vocal, Instrumental, Religious and Children's Music, and all other genres. **This is our mission, to show the diversity of Texas Music.** We offer music, of other genres, that you will not hear in radio repetition/rotation industry.

[What about CD Baby, Reverbnation, iTunes etc?](#) We are simply an added Point Of Sale, the other places you sell your music is your business.

## **VINYL and CD format:**

We are very glad to see a return to the Vinyl format. While many CDs are now simply used as business cards for musicians seeking live gigs, many people still choose to play the CD format for sonic quality. We all know that MP3 loses most of the sonic properties of original recordings.

All Texas Music handles these in two ways. Some musicians pour a great deal of time and expense into the packaging of CDs and Vinyl. **This is why YOU ship the product; we know YOU care enough to make sure it reaches a fan!** We forward your full asking price to you, per order, with shipping information, via Paypal. **We add our charge, of a flat rate of \$3 for All Texas Music, to your asking price, per CD or Vinyl album ordered.** We suggest that you factor in shipping cost with your asking price, since you will be shipping the order. Your asking price is sent to you via Paypal, with the shipping address. We require your Paypal email in order to send you payment you for any purchases made. Hint: the lower your price, the more buyers you get. The (extinct) CD Store prices of \$15 (and up) tend to discourage buyers, unless you are offering Vinyl with a CD pairing. We require the \$3 to help absorb Paypal fees per unit, and to provide ongoing promotion of your music in our store.

If you do not have a store quality packaging of your recording, we will package it at our discretion, and we handle all shipping and handling of CD. Our fee for creating and packaging your CD, from your master, is at **\$5** for ATXM S&H per CD, on top of your asking price (to pay the costs of CD, case and shipping). We require your Paypal email to pay you for any purchases made of your recording.

When someone buys your CD or Vinyl, we send the buyer MP3s via email, which are mastered at highest quality for MP3. These are large, 320kbps files per song and they make your music sound its very best in the MP3 format.

**What about sound quality?** We are a professional mastering service, renowned to musicians of all genres. We have been involved in studios and live recordings for 5 decades. We are known for helping get the perfect sound in a studio as well as in mastering of recordings. All Texas Music is famous for our special process of remastering to create high end, audiophile quality MP3 format files, to let people hear your songs in our online player. Most other MP3s are "ripped" using a high speed process that takes most of the sound quality out of music. To create an MP3 from CD & Vinyl, that sounds as good as the original master (or better), we have a unique process. One listen to our website players, in our online store, will prove it!

Again, when your recording (Vinyl or CD) is purchased through All Texas Music, we send the purchasing customer directly to you, so you can fulfill an order. If you are out of stock, we will create and ship a CD for you. Our specialty remastered, audiophile quality MP3 versions of your songs, are sent via personal email, as a BONUS for their purchase. Your fans can enjoy your music on phones and more only AFTER they purchase your CD or Vinyl. We receive a lot of positive feedback about the quality of these, vs regular "ripped" low quality MP3 download files!

To send your material to ALL TEXAS MUSIC, contact us first by email at [curator@alltexasmusic.com](mailto:curator@alltexasmusic.com). We will ask you some details about your product and give you a location to send your materials. We charge a small fee to get you on our website. When you place your CD, Vinyl or MPs with us, by doing so, you acknowledge you agree with this, our terms.

Finally, you know about ALL TEXAS MUSIC, because we are represented well on most forms of social media. We also can specifically promote your materials across social media, providing advertising. (See our website [www.ALLTEXASMEDIA.com](http://www.ALLTEXASMEDIA.com)). This is why we ask you to contact us on a case per case basis. [curator@alltexasmusic.com](mailto:curator@alltexasmusic.com)
